

## **Practical 7:**

**Aim:** Implement Decision tree classification techniques

## **Requirement:**

R tool

## **Code:**

```
library("party")
print(head(readingSkills))

str(iris)
iris_ctree <- ctree(Species ~ Sepal.Width + Sepal.Length + Petal.Length +
Petal.Width, data=iris)

print (iris_ctree)
plot(iris_ctree)
```

## **Output:**
